### 1- What is Stereo Love for G3F?

With this product you can:

### 2 - How to install it?

Locate your main DAZ folder. It may be something like C:\Users\Public\Documents\My

Merge the contents of the .zip file with your main DAZ folder, where your G3F content is installed. MAC users: please find instructions here:

---> It is important that the **data** and **Runtime** folders are properly installed in your content library folder with the exact path provided in the zip (installing in a sub-folder is a common mistake), otherwise geometry data won't load and grafts will look blocky.
