Love Profusion for G8F Golden Palace

~~Mini-tutorial~~

1 - What is Love Profusion for G8F Golden palace?

Love profusion is a set of mixable cumshots, provided as conforming pieces of geometry for G8F and G8F Golden Palace.

## 2 - How to install it? [two possibilities]

A - Using DAZ Installation Manager

– Locate your DIM zip directory: Open DIM, click on the upper right gear, click on the 'Downloads' tab, and locate the Package Archive directory:
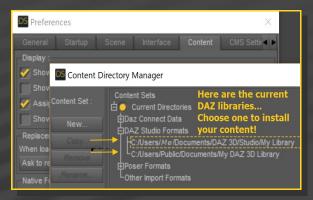

– Copy in it both the zip (do not unzip it) and the dsx files;

– Refresh DIM (couple of round arrows at the top), and enable the 'Ready to Install' tab.

Locate the product, and click 'Install'... done!

Remember that in the DIM settings, you can choose the destination library.

B – Manual procedure

Locate your main DAZ folder. It may be something like C:\Users\Public\Documents\My DAZ 3D Library.

Merge the contents of the .zip file with your main DAZ folder, where your G8M content is

installed. For MAC users: follow instructions here:
http://www.renderotica.com/community/forums.aspx?g=posts&t=204659&cmsg=0&cmsn=

---> It is important that the *data* and *Runtime* folders are properly installed in your content library folder with the exact path provided in the zip (installing in a sub-folder is a common mistake), otherwise textures won't be found.

3 - Where is my content?

You can access to the graft and presets in your Content Library tab under People/Genesis 8 Female/Anatomy/Golden Palace/4-Fluids/Love Profusion

4 – Cum parented to G8F

Half of the cumshots are to be parented to Genesis 8 Female. Just select G8F and load one/several cumshots on it. Such cumshots do not require Golden Palace.

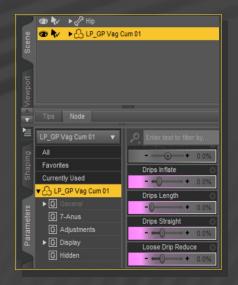

5 – Cum parented to Golden Palace

The other cumshots are to be parented to Golden Palace. Select Golden Palace genitalia in the scene and load one/several cumshots on it.

The vaginal cumshots are built to properly follow the Golden Palace 'Vagina Open' morphs, and can be shaped with morphs that you can find in the parameters tab.

6 – Bonus pose and cum presets

Several bonus poses are included. They have matching cum presets, that include Golden Palace and its shell.

-Setup your G8F character (<u>without Golden Palace!</u>)

-With G8F selected, load a pose preset and its

matching cum preset;

With G8F selected, load the material copy script.

7 – Cum can & dildo props

Two bonus props are included: a dildo and a cum can. You can load them as standalone or parented (having G8F selected before loading them). The full body 'Pose 5' already includes an instance of the cum can in it.
