

Lickalicious for G9 ~~Tutorial~~

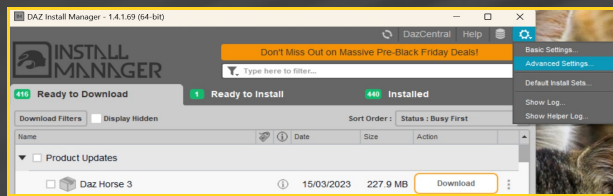

1- What is Lickalicious for G9?

Lickalicious is a graft complete with morphs and textures for the Genesis 9 figure. The set comes complete with piercings, cum & blood options, and a collection of ice creams and whipped cream wearables.

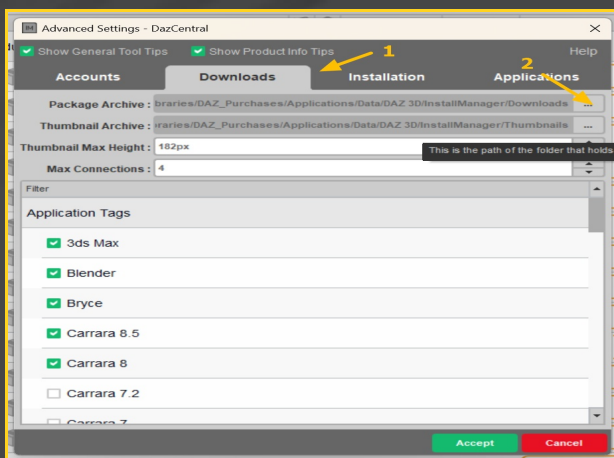

2 - How to install it?

A - Using DAZ Installation Manager

1: Open DIM, select "Advanced settings";

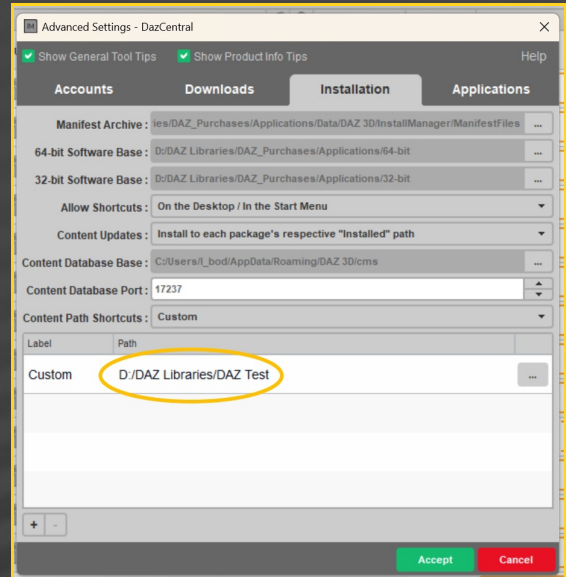

2: Check the Downloads tab (1), locate the download directory (2);

3: Browse to this very directory, drag and drop the .zip and .dsx files you downloaded from

Renderotica (if you use a MAC don't click Return or Replace);

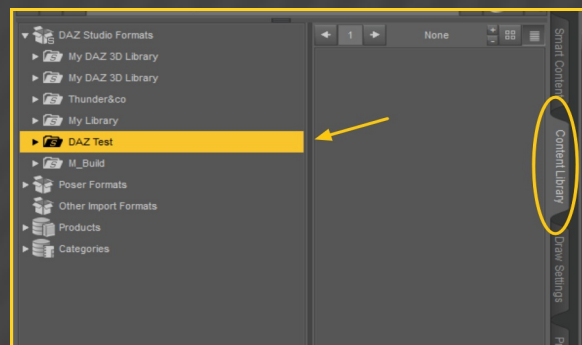

4: "Advanced settings" again, "Installation" tab, check or select your installation folder;

5: Go to the "Ready to Download" tab(1), update the list with the couple of arrows (2), click "Install" (3);

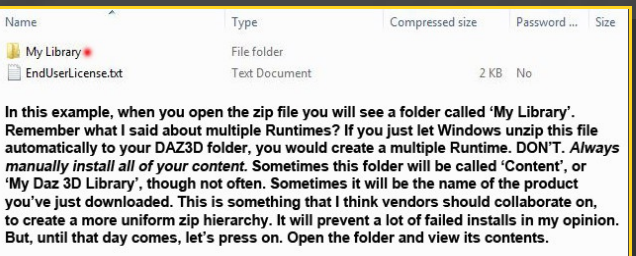

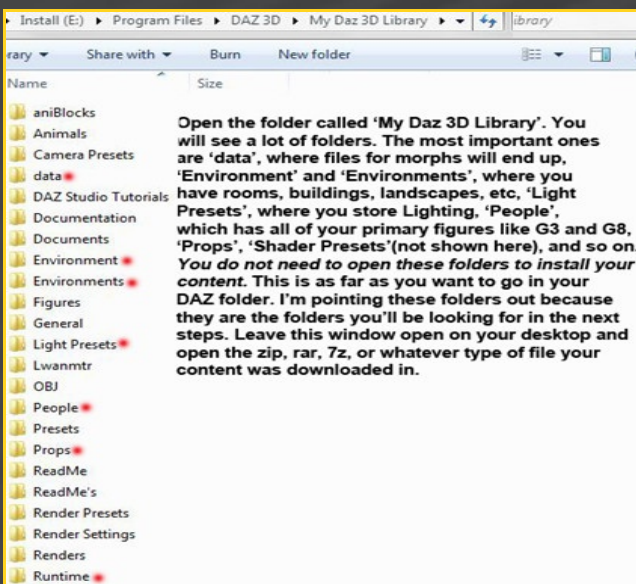

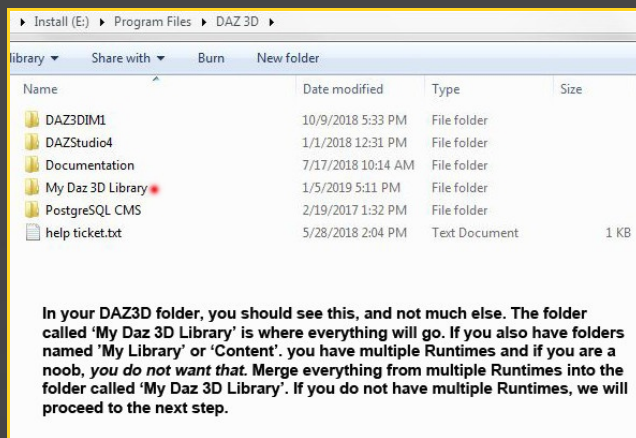

6: Open DS, locate the installation library in the "Content Library" tab.

B – Manual procedure

For PC users: (instructions courtesy of matt):

For MAC users: (instructions courtesy of Guttersnipe):

1. Locate your "My Library" folder and COPY the

unarchived contents of your product by dragging and dropping while holding down the "alt" button.

2. A dialogue will appear.

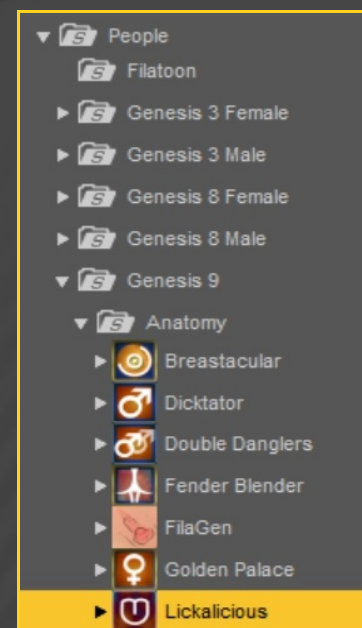

DO NOT PRESS RETURN OR CLICK ON "REPLACE"

This is very, very important – if you do it will delete everything you have in any matching folders.

Instead click on "Apply to All" and then (carefully) click on "MERGE":

You may need to refresh your content library (alt-click on "My Library" and select "refresh" from the context menu) or restart Daz to see your new items.

3 - Where is my content?

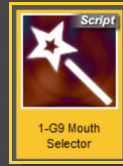

You can access to the graft and presets in your Content Library tab under 'People/Genesis 9/Anatomy/Lickalicious'

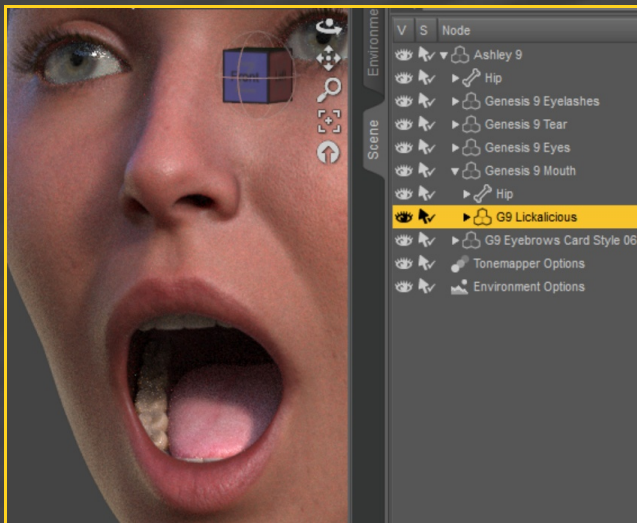

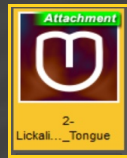

4 – Lickalicious Setup

A - SIMPLE SETUP... use this if the tongue root **isn't visible**:

1-Load G9 and select the G9 Mouth:

2-Load the tongue graft:

If you want, you can load several tongue grafts for monster characters:

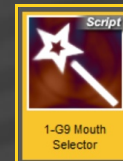

Once loaded, they overlap, but they'll be visible when you'll pose them:

B - FULL SETUP... use this if the tongue root **is visible**:

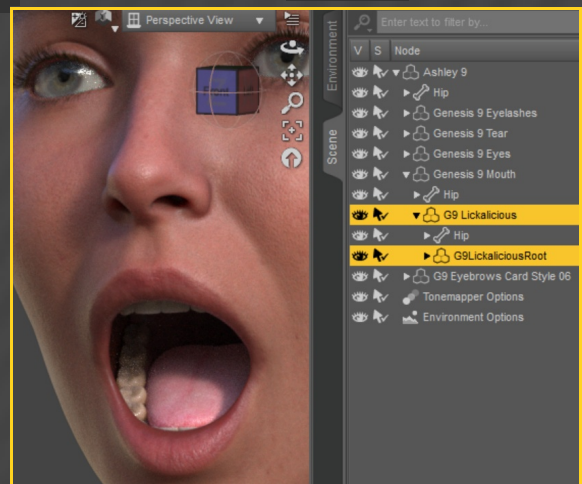

1-Load G9 and select the G9 Mouth:

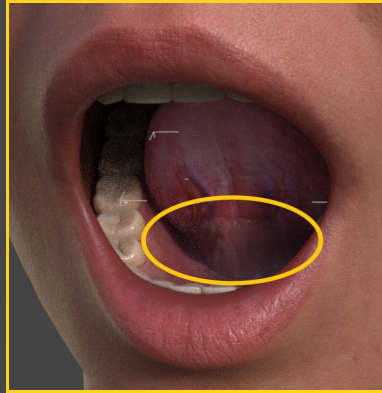

2-Load the 'Full Preset':

3-Load the 'Material Copy' script:

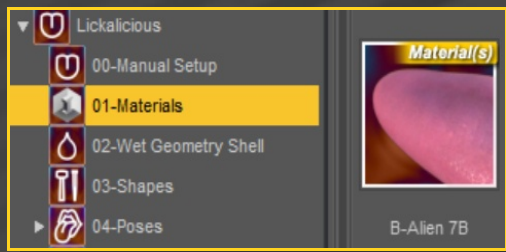

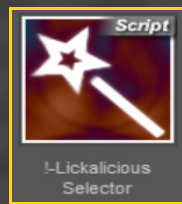

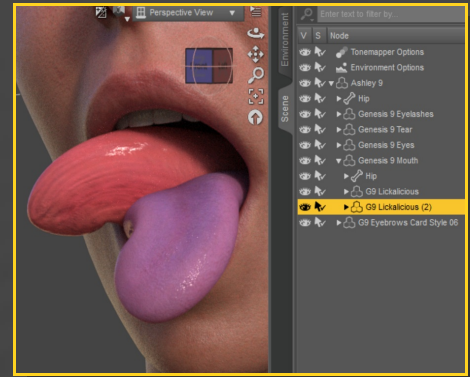

The '**Full Preset**' loads a second graft that takes care of the root blend.

5 – Texture options

In the *Lickalicious/1-Material Options* folder, use the '*Lickalicious Selector*' script and select a material option:

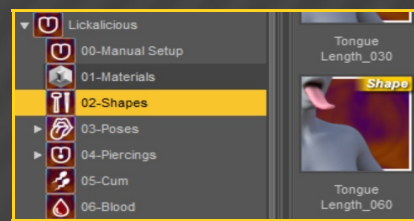

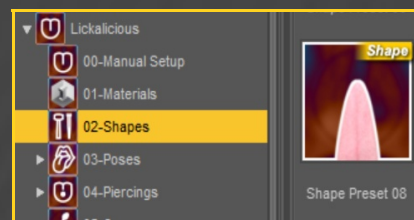

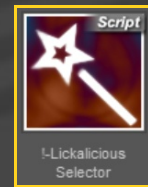

If you have a multiple tongue setup, all of them will get coloured at once. If you want a different texture on each tongue, manually select a Lickalicious graft in the 'Scene' tab and inject a material presets on it:

6 – Morphs and poses

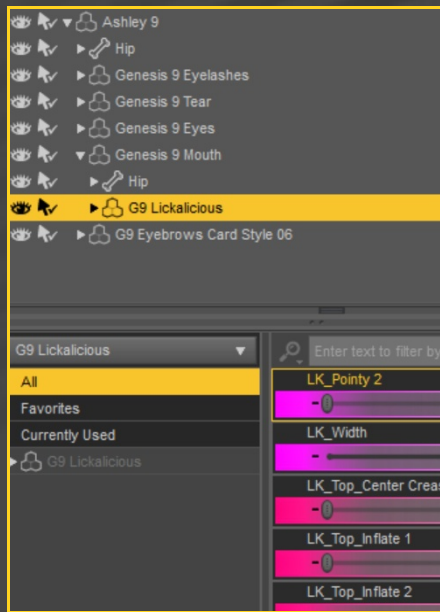

You can adjust the shape and length of the tongue with the presets included in the *Lickalicious/2-Shapes* folder. Use the '*Lickalicious Selector*' script and inject the presets:

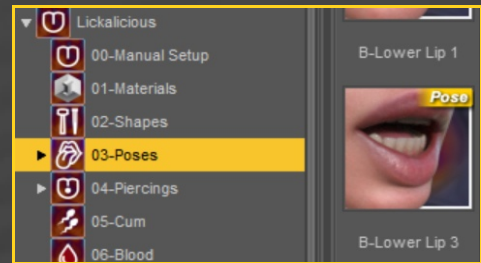

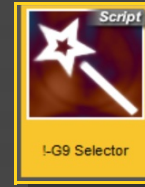

If you have a multiple tongue setup, all of them will get shaped at once. If you want a different shape on each tongue, manually select a Lickalicious graft in the 'Scene' tab and inject a shape presets on it.

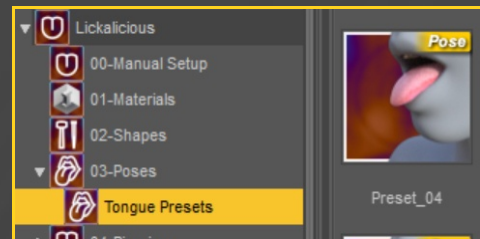

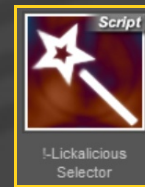

For fine-tuning, the morphs can be dialed in the 'Parameters' tab as well:

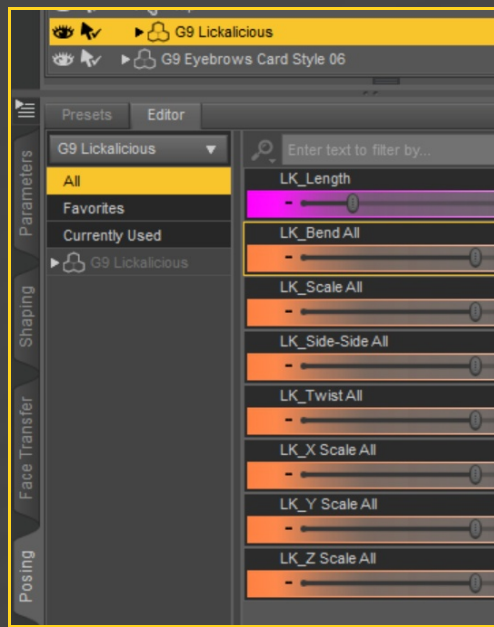

Then, you can adjust the mouth&lower lip shape with the presets included in the '**Lickalicious/03-Poses**' folder. Just select G9 and inject a preset:

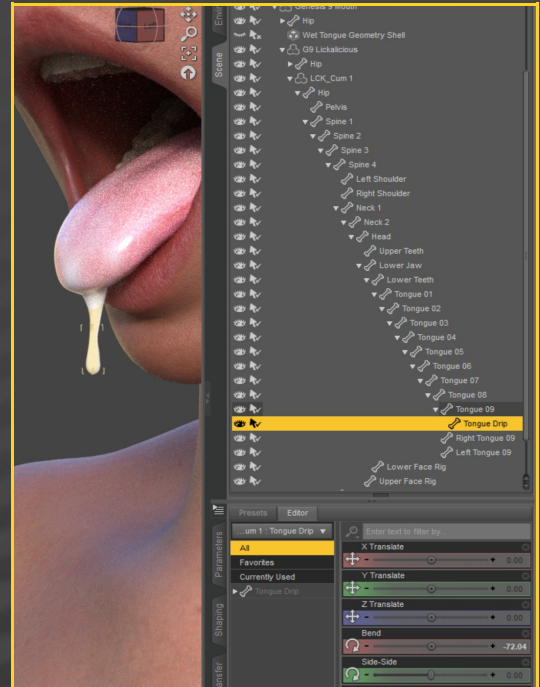

Last, select Lickalicious and load a pose preset from the '**Lickalicious/03-Poses/Tongue Presets**' folder:

The tongue can also be posed bone by bone or using the smart dials in the 'Poses' tab:

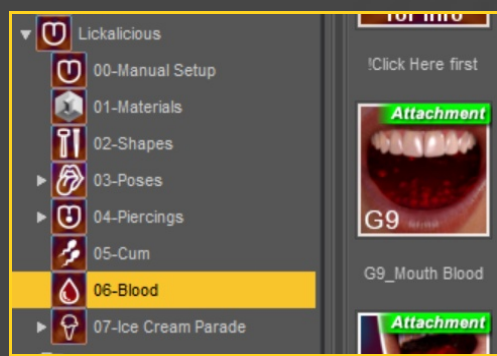

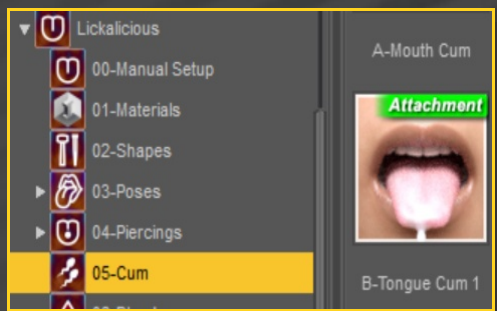

The '**Tongue Cum 1**' includes a drip that can be posed:

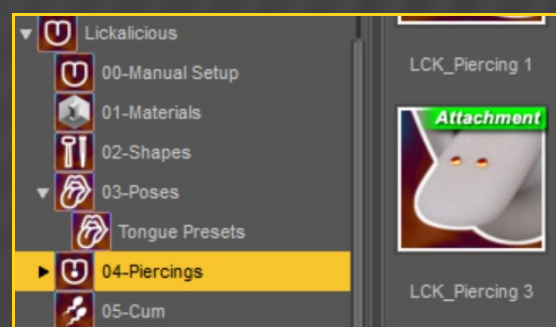

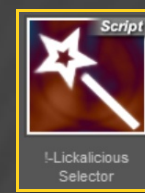

7 – Cum and Blood

Several cum&blood followers can be loaded either on G9 (mouth fill) or on the tongue:

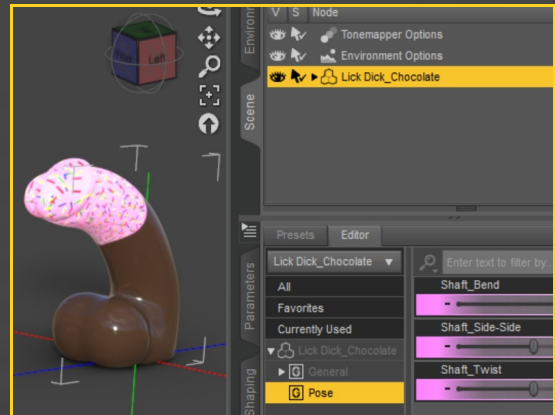

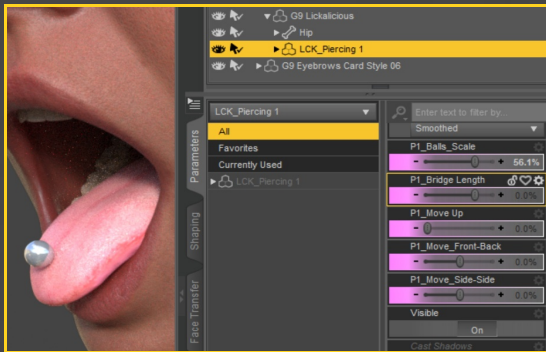

8 – Piercings

You can load several piercings on the graft:

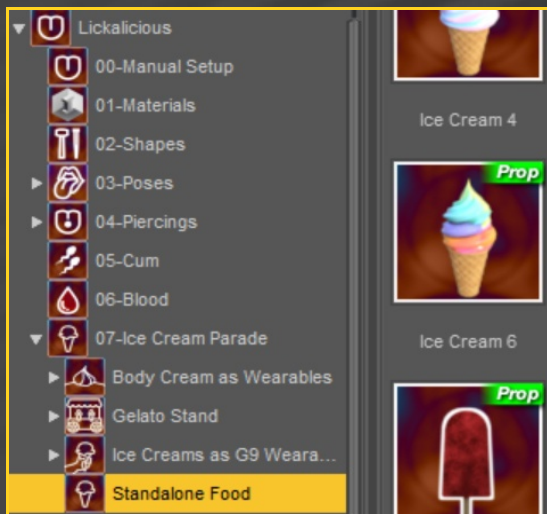

You can adjust their shapes and position with the morphs included in the 'Parameters' tab:

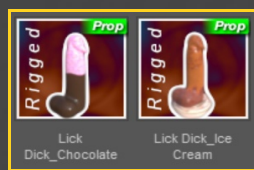

Many of the props can be loaded as wearables. Just select Gg / Lickalicious / Golden Palace / Breastacular / Dicktator and load the followers from the dedicated folders:

9 – Cream Parade

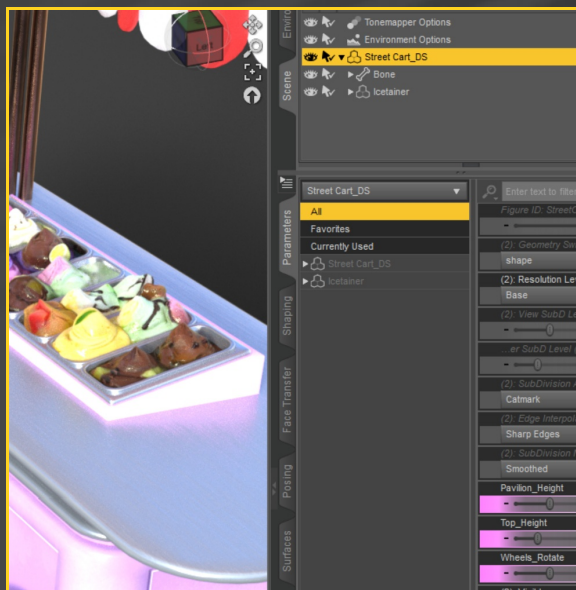

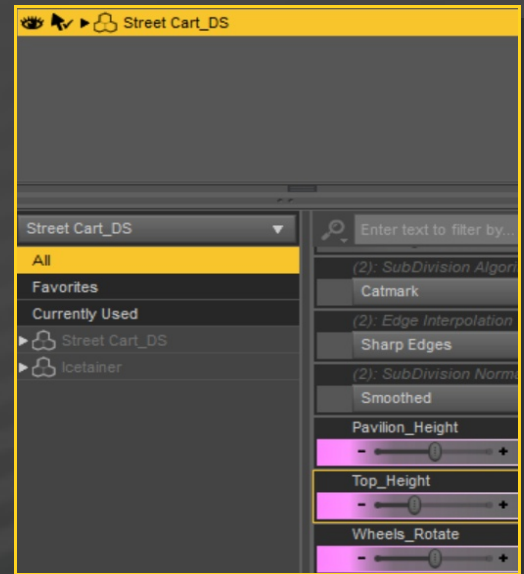

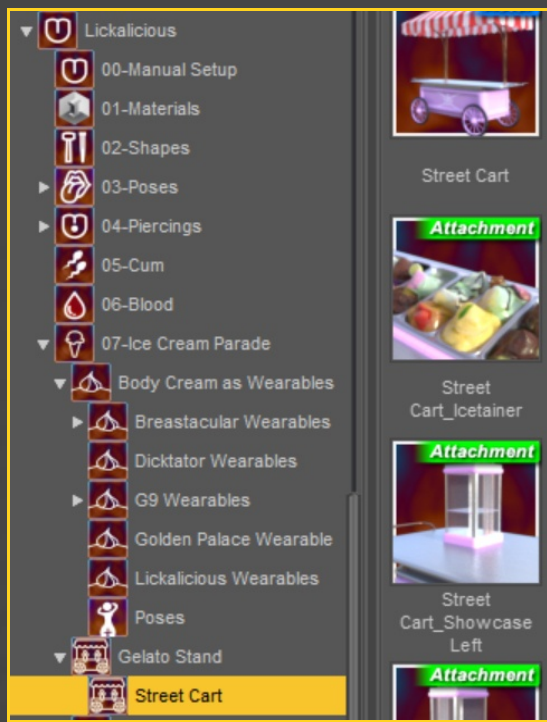

As a bonus, an ice-cream set is included. It provides as collection of standalone props:

Some of them are rigged and posable:

An ice-cream cart is included as well. It's a standalone actor, and some followers can be loaded on it:

The cart includes morphs that can be dialed in the '**Parameters**' tab:
